

Declaration of Conformity

CETOL[®] WP 567^{BPD}

Products containing Biocide have to be tested and approved according to the biocide regulation (BPR)(EU) Nr. 528/2012 (currently Directive 98/8/EG), in terms of wood protective effect and in consideration of health aspects. The health examination based on limit values of the biocide regulation is especially much more extensive and challenging as e.g. the RAL Quality Mark. The product CETOL[®] WP 567^{BPD} was tested, evaluated and approved subject to the current instructions of above regulations.

The country registration's code for UK is UK 2012-0330FF.

The product CETOL[®] WP 567^{BPD} was also evaluated according to the RAL Quality Mark under No. 1035 by the Federal Institute for Risk Assessment (BfR). According to current scientific standard of BfR, there is no health concern when using and handling the product based on information provided in the valid Technical Data Sheet. The performance and effectiveness were tested and evaluated according to RAL-GZ 830 of RAL Quality Mark RAL Wood Preservative Quality Mark by Federal Institute for Materials Research and Testing (BAM). Both institutes awarded CETOL[®] WP 567^{BPD} RAL Quality Mark 830.

CETOL[®] WP 567^{BPD} complies with standard of RAL Quality Mark RAL-GZ 830 and significantly much more challenging evaluations and approval according to Biocide Product regulations.
