WOOD COATINGS

CETOL® WM 6100-XX

LONGLASTING AND HIGH
PERFORMING CRYSTAL
CLEAR SOLUTION

Waterborne solution for non bleeding wood species.

Our CETOL® WM 6100-XX offers a longlasting, high performing 1K Waterborne translucent solution, substantiated with excellent transparency (crystal clear) and very good pore wetting. Unprecedented sandability with minimized risk of sanding through for a silky smooth surface.

Technology

Waterborne 1K

Application

Flowcoat (CETOL®
WM 6100-02)

Application

Spraying (CETOL®
WM 6100-03)

Shelf Life

24 Months

Color

Translucent

Durability

Included
in Extralife 7Y

Application Temp

Min: 15-25°C for
Substrate at 60% RH

Sustainability

Waterborne

Applying Possibilities

WATERBORNE
