WOOD COATINGS

Passion for wood

AkzoNobel

Custom-fit coating systems for excellent results

As leaders in professional wood coating, we have developed high-quality products which have been optimally matched to the needs of the prefabricated housing industry, saw mills and carpentry businesses. This allows you to achieve top-class surface results – regardless of which wooden component you are coating.

Our products lead you to safe, high quality work results: We have high quality coating systems for application by vacumat, flowcoater, brushing machine or manual brush. Our offer contain practical 1-pots in base coats, mid coats and top coats.

Our translucent and opaque coating systems, which perfectly combine industrial and manual applications and ensure colour consistency, also guarantee a perfect result in a component-based surface coating.

Sikkens Wood Coatings

Tradition and competence, innovation and quality, service and partnership – these are the values that have made us the leading brand in wood coatings for exterior applications. The basis of our success is our passion for wood and striving toward perfect coating solutions.

The Sikkens Wood Coatings brand has existed since 1792. Experience and expertise have grown enormously in that time. We are very proud of our tradition, of the quality of the products and of the satisfaction of our customers who have made us the market leader.

But our past success does not blur our vision for the future. Quite the opposite - we see the challenges very clearly and have developed ideas and visions in order to overcome them.

Sealant layer Impregnation Primers

KODRIN WV 456

Translucent 1K joint sealant

Quick drying, elastic, easy to apply.

Water-based

Binder type: Acrylic
Application:

- Brush
- Spatula

Fields of application:

For sealing end-grain surfaces

Colours

Colourless

Pack sizes

750 ml

CETOL® WP 567 BPD

Translucent 1K impregnating primer

Impregnates and primes in one work step, protection against blueness and rot.

Water-based

Binder type: Acrylic
Application:

- Dipping
- Flowcoating
- Brushing machine
- Vacumat
- Brush

Fields of application:

- Dimensionally stable wooden components
- Wooden parts with limited dimensional stability
- Non-dimensionally stable wooden parts

Colours

Base TC colourless (Excerpt from Joinery Color Classics)

Pack sizes

2.5 l / 20 l

RUBBOL® WP 198

Opaque 1K primer

Reduces discolouration over heartwood and branches, good water-repellent properties, durable.

Water-based

Binder type: Acrylic
Application:

- Spraying Airmix/Airless
- Conditionally paintable

Fields of application:

- Dimensionally stable wooden components
- Wooden parts with limited dimensional stability

Colours

White

Pack sizes

20 l / 120 l

RUBBOL® WP 151

Opaque 2K primer

Excellent insulating effect against discolouration caused by components of softwood and hardwood structures, good filling capacity, good pore wetting.

Water-based

Binder type: Acrylic PU
Application:

- Spraying Airmix/Airless
- Conditionally paintable

Fields of application:

- Dimensionally stable wooden components
- MDF, HDF with limited dimensional stability

Colours

Cream-white

Pack sizes

RUBBOL® WP 151 primer
4.16 l / 16.67 l
WH 830 (WP 151 B) hardener,
0.84 l / 3.33 l

Mid coat system

RUBBOL® WF 3310-04-25

Opaque semi matt 1K mid and top coat

Good hiding power, good levelling, good weather resistance

Water-based

Binder type: Acrylic
Application:

- Brush
- Brushing machine

Fields of application:

- Dimensionally stable wooden components
- Wooden parts with limited dimensional stability
- Non-dimensionally stable wooden parts

Colours

Base B00 neutral, Base B01 white

Colour shades from 5051 Color Concept, RAL and NCS

Pack sizes

0.9 l / 2.25 l / 9 l

Colour shades RAL 9016
2.5 l / 10 l

RUBBOL® WF 3310-06-25

Opaque, semi matt 1K primer, mid/top coat

Good levelling, good weather resistance

Water-based

Binder type: Acrylic
Application:

- Spraying
Airmix/Airless
- Vacumat
- Brush

Fields of application:

- Wooden parts with limited dimensional stability
- Non-dimensionally stable wooden parts

Colours

Base B00 neutral, Base B01 white

Colour shades from 5051 Color Concept, RAL and NCS

Pack sizes

2.25 l / 18 l / 96 l / 120 l

Colour shades RAL 9016
20 l / 120 l

CETOL® WF 9810-46-25

Translucent, semi-matt 1K primer, mid and top coat

High transparency, good pore wetting, good levelling and excellent weather resistance

Water-based

Binder type: Acrylate
Application:

- Spraying
Airmix/Airless
- Vacumat
- Brush

Fields of application:

- Wooden parts with limited dimensional stability
- Non-dimensionally stable wooden parts

Colours

Base TC colourless

Joinery Color Classics

Pack sizes

2.5 l / 10 l / 20 l

Oils / thin film systems

CETOL® SF 731

Translucent matt 1K primer, mid/top coat

High transparency, deep penetration, easy to process

Solvent-based

Binder type: Alkyd
Application:

- Brush
- Dipping
- Brushing machine

Fields of application:

- Wooden parts with limited dimensional stability
- Non-dimensionally stable wooden parts

Colours

Colourless

Pack sizes

5 l / 20 l

CETOL® WF 771

Translucent matt 1K primer, mid and top coat

Good UV protection, high water vapour permeability

Water-based

Binder type: Acrylic alkyd
Application:

- Brush
- Dipping
- Flowcoating
- Brushing machine
- Vacumat

Fields of application:

- Wooden parts with limited dimensional stability
- Non-dimensionally stable wooden parts

Colours

Base TU colourless

Never Ending Impressions
Joinery Color Classics

Pack sizes

2.5 l / 10 l / 110 l

Protection for wood in outdoor use – CETOL® WF 771

Wherever wood is used it creates the sense of well-being and ambience to the surroundings. Wood can be exposed to extreme weathering in directly exposed outdoor areas and will require special protection.

For a world full of colour

We have developed a special translucent coating in CETOL® WF 771 that preserves the unique wood effect and a finish which glistens in bright colours. Wood protection and a fascinating colours are the hallmark of the CETOL® coatings. Our Never Ending Impressions collection offers you a fascinating colour spectrum with maximum transparency.

Also in metallic look

Give the fascinating colour world of Never Ending impressions a new dimension and use effect pigment WV 810 to create the new metallic effect.

Metallic-look wood - this is the start of a new, fascinating trend. With its very special appearance, the metallic effect lends the natural material its own visual appeal. The effect can be varied by adjusting the amount of metallic pigment added. The amount added should not exceed 5%.

(1) Lavender + 1% WV 810, (2) Mineral grey + 1% WV 810, (3) Gold satin + 1% WV 810

Colouring wood

Sikkens Wood Coatings offers your customers a huge range of colour collections. Many customers are looking for greater individuality in their properties' coating design. This can be clearly seen, for example, in the fact that more than a third of all components can already be coated in colour - both with strong, opaque colours and with light stains, which accentuate natural wood grain.

Never Ending Impressions

Our Never Ending Impressions NEI collection, developed at the Akzo Nobel Aesthetic Center, shows the entire spectrum of harmoniously balanced colours of subtle to vivid expressiveness.

Preventative wood protection and a naturally beautiful colour collection are typical features for our translucent coats. This leaves more room for creative freedom and the implementation of the very personal taste in colour of your customers. It also convinced our major customers Walt Disney and McDonald's.

Never Ending Impressions translucent on spruce wood:

Joinery Color Classics

Joinery Color Classics translucent and opaque on spruce wood:

New modern shades of grey

This collection shows you a wide range of beautiful, elegant, harmonious, natural shades that have been very popular in the modern world for many years.

Supplement to Joinery Color Classics on spruce wood:

RAL and Sikkens 5051 colour fan

The RUBBOL® RAL or 5051 fans show the great variety for opaque coatings.

Discover the almost unlimited possibilities of colourful design for opaque coating systems. All perfectly matched to your wooden elements. But colours from other collections can also be easily realised with RUBBOL® products.
